OUR MISSION of helping people throughout life's journey is what drives us to make an impact on the community by supporting Baptist Health Care. The snapshot of funds above details the donations made in 2020 and demonstrates our commitment to Baptist Health Care and the many services it provides.

LETTER FROM THE CHIEF DEVELOPMENT OFFICER

Dear Friends,

This year has been an especially challenging year for us all as unprecedented moments and times of uncertainty seemed to define most of 2020. As we reflect upon the past year, we are reminded that with your strong and continued support in so many ways, we were able to continue to further our important Mission of helping people throughout life's journey.

We are incredibly grateful for the outpouring of encouraging messages and offers to support Baptist Health Care and our team members through the COVID-19 pandemic. We are thankful for your support and the thoughtfulness of our community for our organization.

We would not be able to advance on our journey without you — our loyal past donors and our growing new generation of supporters. Thanks to our generous partners and overwhelming charitable gifts from our community, 2020 has been quite a remarkable year for the Baptist Health Care Foundation. Despite the many challenges that were faced, together, we made incredible impacts on our community's only locally owned, not-for-profit health and human services system.

Your gifts to the Foundation, regardless of size, make a significant difference in the lives of the individuals and families we serve, ultimately improving our community. The Foundation remains committed to be a catalyst for the future of Baptist Health Care. On behalf of our entire organization, thank you. We are humbled by your support.

Our 2020 Impact Report highlights several areas of the Foundation's contributions in the last fiscal year. These areas include — our COVID-19 relief efforts, as well as the community's support of Baptist during the height of the pandemic; the Faith Health Network of Baptist; the Women's Board of the Foundation; our Helping Hands team member giving program; and multiple Baptist Health Care, Lakeview Center and FamiliesFirst Network initiatives.

I would like to take this opportunity to thank our Foundation board members for their guidance, participation and unwavering support. These individuals are an essential component to the success of the Foundation, and we are thankful for their dedication to our organization.

To you, our friends, thank you again for the tremendous outpouring of support you have shared with us. We are honored to serve you.

With gratitude,

KC Gartman
Chief Development Officer
Baptist Health Care

TRANSFORMING BAPTIST for the FUTURE

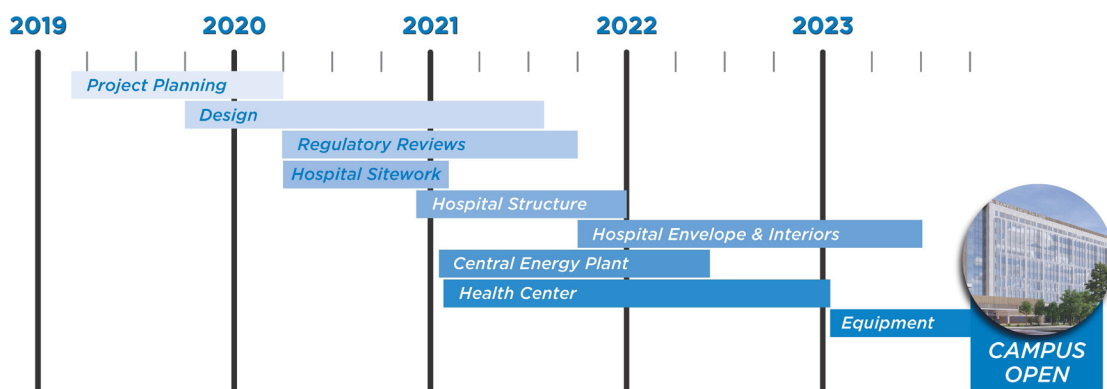

A NEW CAMPUS TO SERVE THE COMMUNITY FOR GENERATIONS TO COME

Continuing our founders' bold vision and legacy, Baptist is transforming care in our community to improve the quality of life for generations to come. Our new health campus at the corner of Brent Lane and I-110 will bring a modern and more accessible approach to health care to our region.

This new 57-acre, centrally located campus is being designed to be a calm, peaceful, patient-centered environment of care for those we serve. An innovative, convenient, safe and compassionate place to provide and receive care, the new campus will incorporate modern efficiencies in a healing environment. We expect to open this new campus in the fall of 2023.

Visit eBaptistHealthCare.org for future updates about this transformation.

COVID-19 PHILANTHROPIC EFFORTS

On March 4, Baptist Hospital received the first COVID-positive patient into our care. It was the first confirmed positive case in our community and the fourth in the state of Florida. At the time, no one could imagine how COVID-19 would come to impact our communities, our organizations, our front-line clinicians and our entire team of 7,300 team members across the country.

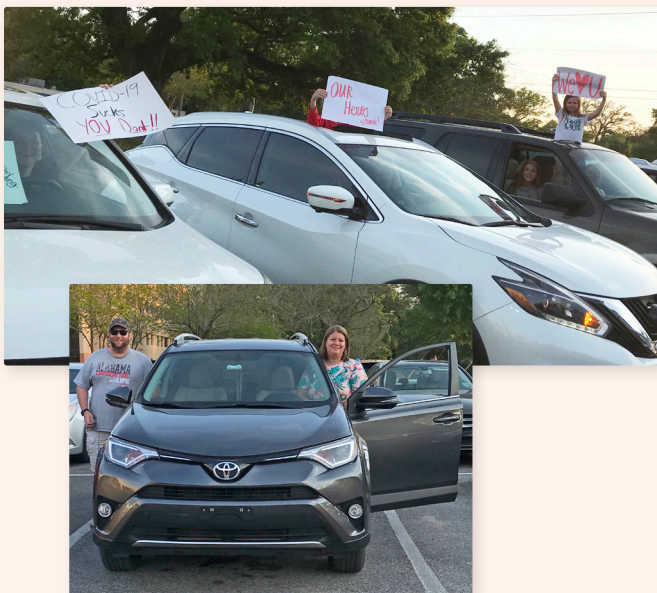

As our team quickly stepped up to provide unprecedented care for our communities, our communities quickly stepped up to care for our team members in return. The Foundation team took the lead in managing and coordinating the many giving efforts from generous donors including countless messages of support, monetary contributions and in-kind donations.

Since the beginning of the pandemic in March, the Foundation received more than **\$164,608** for in-kind donations of food, goods and equipment, as well as **\$42,807** in cash donations. These donations have positively impacted team members and departments across our organization.

The Foundation created a **COVID-19 Response Fund** to provide emergency funding to support Baptist Health Care's highest priorities in the COVID-19 response efforts.

In-Kind Donations and Gestures of Kindness

- **Personal protective equipment (PPE)** such as hand-sewn masks and gowns, sterile gloves, shoe covers, coveralls, caps, N95 respirators, face shields, safety glasses and ear saver clips
- **Cleaning supplies** including disinfecting wipes, hand sanitizers and soap
- **Donated meals, snacks, drinks, care packages and flowers** for our weary front-line team members
- **Prayer caravans** in our parking lots blessing our team members as they care for those infected with the virus

COVID-19 Response Fund

- **Expand isolation areas within our hospitals and create negative pressure rooms** – This eliminates the risk of recirculated air from infected patient rooms.
- **COVID-19 detection kits** – These help identify positive cases in our community.
- **N95 respirators** – These protect team members working directly with COVID-19 patients. They offer more protection than a surgical mask as it can filter out both large and small particles when the health care worker inhales.
- **Protective gowns** – These reduce the spread of droplets or other body fluids to the health care workers' skin and clothing and hence reduce the risk of secondary spread.
- **Team member emergency assistance** – This provides financial support to Baptist team members who have been impacted by COVID-19.

Casino Royale

Following Baptist's internal policy to cancel most in-person events and meetings for the remainder of the year due to COVID-19 precautionary measures, the Foundation made the tough decision to cancel our annual Casino Royale gala this year. Many of our generous donors and sponsors opted to transition their sponsorship to a direct donation to our COVID-19 Response Fund. As a result, the Foundation donated **\$200,000** from **Casino Royale** donations back to Baptist in support of COVID-19 response efforts.

Brigid's Story

Brigid Quinn captured the hearts of many across the country, especially ours. The 10-year-old from Georgia, who hand makes her own unique bracelets, made it her mission to send these special gifts to at least one hospital in every state to support front-line health care workers. We were honored that she selected Baptist Hospital as a recipient. These bracelets brought many smiles to our team members working in the COVID-19 unit. Her inspiring story was also featured on NBC Nightly News Kids' Edition.

FAITH HEALTH NETWORK

The Faith Health Network (FHN) is a program of Baptist Health Care that serves as a bridge between community health care resources and local congregations. Through this partnership, community members are provided a network of health care support by fostering personal relationships using volunteer congregational liaisons and dedicated health care navigators. Since the program began in November 2017, 66 congregations have joined as members of FHN, with several more on the waiting list. The FHN receives funding through the Foundation from **Florida Blue Foundation**, **Cigna Worlds of Possibilities** and the **Hollinger Charitable Foundation**.

Social, spiritual bonds are often linked to a better well-being, and a sense of faith and community can improve emotional health. The FHN works with the congregations to provide access to education and preventive medicine through health screenings, health education, assistance accessing the right clinic or physician for specific health needs, mental health resources and advocacy. Should there be a need to come to the hospital, FHN can provide a network of aftercare support following an illness or treatment of a medical condition. The goal is to ensure that FHN members enter the system at the right place, at the right time, for the right reason, and understand that they are not alone.

At the beginning of the COVID-19 pandemic, the FHN team had to reevaluate processes and deliverables of the program, as all in-person meetings and gatherings were canceled for the remainder of the year. Nevertheless, they continue to support church members during a time of a community-heightened state of fear and concern. These ideas were centered around navigating, advocating and educating to ensure that clergy and members continue to receive the services provided by the FHN.

The Faith Health Network supported local congregations during the pandemic in a number of ways.

They provided resources such as **5,600 resource guides, 31,765 masks** distributed to **66 congregations, 36 congregation reopening kits**, sign-in sheets to help with contact tracing, thermometers, social distancing floor stickers, COVID-19 safety information, signs and gloves.

They partnered with the National Association for the Advancement of Colored People to provide Escambia County Area Transit with **2,500 care packages** to be used in their Paratransit Services Program. This program provides transportation to the disadvantaged and most vulnerable populations.

With the quick changes to BHC's visitation policy, FHN immediately notified the pastors and liaisons on the new inpatient process going forward, which consisted of telephonic navigation.

They conducted Zoom meetings that encouraged ministry leaders to protect the vulnerable and remember the lonely. Telephone calls and letter writing were used for communication as the more seasoned population may not be tech savvy.

They encouraged congregations to move to digital platforms and be creative.

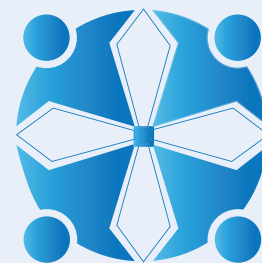

The FHN team served as technical assistance agents for smaller congregations, **educating them on how to use Zoom, YouTube and Facebook** to engage with their members.

They asked congregations to communicate with hope, only using facts.

They communicated out CDC guidance to make sure all pastors were equipped with consistent messaging.

They created a reopening guild and encouraged them to conduct a survey to help make the decision about reopening.

Despite COVID-19 fears, churches are more interested than ever in becoming active members of the FHN. Many pastors have described the network as an extension of their ministries. Even though the FHN program is geared toward churches, its services are available to everyone, including ongoing Zoom webinars on various health topics such as heart disease, nutrition, stress management and self-care.

HELPING HANDS – ALL IN FOR BAPTIST HEALTH CARE

Team members of Baptist Health Care, Lakeview Center and Global Connections to Employment are among the most generous individuals to the Foundation, contributing more than **\$298,504** in the last fiscal year. This year, in support of COVID-19 team member assistance and hurricanes Laura and Sally relief support, external donors contributed an additional **\$44,247** to the Helping Hands Fund. The Foundation's Leadership Giving Society, comprised of team members who contribute \$500 or more a year, also voted to donate **\$25,000** to support hurricane relief for team members, half of its annual contribution to support Baptist. Donations to the Helping Hands Fund financially impact three focus areas: assisting team members and their families directly, giving back to our communities and supporting our organizational Mission of helping people throughout life's journey.

In addition, Chautauqua Healthcare Services (CHCS), based in Defuniak Springs, Florida, recently became an affiliate of Lakeview Center. CHCS had a program similar to Helping Hands that provided financial assistance to team members in time of need. Funds in the amount of **\$17,238** were transferred to the Foundation and were designated for emergency assistance for CHCS team members.

TEAM MEMBER IMPACT

- **Emergency Assistance**
\$177,678 to support team members through catastrophic events
- **Hurricane Assistance**
\$94,500 included in emergency assistance
- **Holiday Food Assistance**
119 team members
- **Educational Scholarships**
38 awarded
- **Adoption/Foster Care Assistance**
10 team members

COMMUNITY IMPACT

- **C.A. Weis Elementary School**
550 students enjoyed Christmas gifts.
- **Mission Trips**
One mission trip funded (Missions were impacted this year by COVID-19.)
- **United Way of West Florida**
35 programs at 31 local agencies received funding.
- **Global Connections to Employment**
Additional \$5,000 went toward Hurricane Laura relief.

ORGANIZATIONAL IMPACT

- **Mini-Grants Program**
22 mini-grants were awarded system-wide.

Five days, five months, and even five years from now, we and our community will look back on this time and reflect that not only did we have a pandemic, but we also had a hurricane. Here at Baptist, not only did we live through both, we *led* through both. Thank you for all you are doing to serve through these very difficult circumstances. Thank you for helping us live out our Vision and Mission when our community needs us most.

— Mark Faulkner

COVID-19 and Hurricane Relief

This year proved to be an especially tough year for everyone as news of a global pandemic spread, safety measures and guidelines were implemented, school cancellations began, telecommuting was set up, and fear and anxiety set in. Team members began experiencing the impacts of COVID-19. Some were furloughed or lost hours due to office closures. Some had immediate family members that became sick, and they needed to care for them. Some became sick themselves and were hospitalized or had to quarantine away from family members. Some experienced burnout and mental health fatigue from constantly serving on the front lines of the pandemic. All of this occurred while missing days, weeks and, in some cases, months of work with not enough paid time off to cover their days away.

Helping Hands emergency assistance provided more than **\$21,000** in financial assistance to team members impacted by COVID-19.

COVID-19 Emergency Assistance

On July 7, 2020, a Lakeview Center team member received a positive test result for COVID-19. So many questions and emotions came to mind: frustration, fear of infecting older family members, stress. One family member especially was vulnerable due to undergoing cancer treatments.

Thankfully, I work for an organization that helped me absorb a great deal of the stress. The Helping Hands emergency assistance program of the BHC Foundation arranged a safe space for me to stay during the required period of isolation. Without this assistance, I would have put my entire family at risk. In addition to a prayer of deep gratitude, I pray that everyone continues to be diligent to stay safe and to keep hope alive.

“The hope that Helping Hands gave me is something that I have chosen to pass along, so I submitted my own pledge card to be a Helping Hands donor for when someone else needs it.”

— Lakeview Center team member

Hurricane Assistance

In addition to COVID-19 impacts, the Gulf Coast was hit by two back-to-back hurricanes this year. **Hurricane Laura** made landfall near Cameron, Louisiana, as a strong Category 4 storm on Aug. 27, impacting several of our Global Connections to Employment (GCE) team members working at Polk Air Force Base, located near Leesville, Louisiana. In addition to a direct **\$5,000** donation from Helping Hands to GCE, the Foundation provided **\$16,500** in financial emergency assistance to impacted team members.

Less than a month later on Sept. 16, **Hurricane Sally** surprised the area with a Category 3 storm that devastated Escambia and Santa Rosa counties in Florida and Baldwin County in Alabama, impacting hundreds of team members. Homes were covered with heavy flood waters and destroyed from the inside out. People were evacuated from their homes, leaving everything behind. Vehicles were swept up in rising waters, flooded and totaled. Trees were split, fallen or completely torn from the earth. Roofs were ripped off, causing extensive water damage and ruin. Debris was strewn and scattered throughout neighborhoods. Power lines were down causing outages for days, those affected losing all frozen and refrigerated food items. The Pensacola Bay Bridge was ripped apart beyond easy repair, leaving team members who travel across county lines in a bind, adding longer travel times, potential toll charges and congested traffic to their extended work commute.

In the weeks following Hurricane Sally, Helping Hands provided more than **\$78,000** in financial emergency assistance to support team members impacted by the storm.

For one team member, the strong winds and heavy rain battered her home, causing significant water damage that ruined the floors, insulation, sheetrock and ceiling. Water from the leaking roof caused parts of the ceiling to cave in. Fences in both the front and back yard were destroyed. Even with homeowner's insurance, large deductibles for repairs still caused financial strain.

“

I am never one to ask for help, so this was a huge step for me to even apply. I've always pushed myself to get through anything. I've learned as a single mother with no help or income other than my own, sometimes it's OK to ask for help. I love Baptist and our team — we are more than co-workers; it's like family to me. Thank you truly and God bless!

”

— Baptist Hospital team member

Hurricane Assistance Provided To Team Members

- Deposit/first month rent for those displaced
- Payments of bills to offset home/roof repairs
- Car repairs due to flooding
- Food assistance

C.A. Weis Elementary School

For more than 15 years, Baptist has partnered with local community school C.A. Weis Elementary to bring the joy and excitement of Christmas to nearly **550 students**. Many of these children and their families face challenges in their daily lives, and through this annual event, Baptist shows how much their community cares about them. Departments system-wide sign up to volunteer to adopt classrooms, teachers provide the students' wish lists, and then Baptist team members provide each student with gifts, snacks, games and crafts during a Christmas classroom celebration. Santa Claus arrives via a helicopter, greeting each child and visiting all classrooms.

Photos reflect 2019 event.

Bras Across the Bridge and Mammogram Fund

Prior to the pandemic, the 10th annual Bras Across the Bridge held on October 5, 2019 raised more than **\$43,000** for the Foundation's **Mammogram Fund**, which provides mammograms for uninsured women in our community, as well as support education and awareness for early detection.

BAPTIST HEALTH CARE MAMMOGRAM FUND

Over **10** years:

2,253 screenings provided

475 required additional testing

58 required biopsies

21 diagnosed with breast cancer

BAPTIST
Health Care Foundation

Nearly 500 new bras were donated by Bras Across the Bridge participants. The Foundation donated these bras to several local organizations that help women and girls in need including Pathways for Change, Opening Doors of Northwest Florida, Suit Yourself of United Methodist Church and Warrington Elementary and Middle Schools.

Survivor's Perspective

My breast cancer was caught very early. I felt the lump, and I let it go for a couple months because I've had lumps before. Something told me, go have it checked. After having it checked, they told me it was Stage 1. It was just a half-inch lump and a half-inch lymph node. I would tell other women who cannot afford the mammogram, just call Baptist. They saved my life. It's a very good program. Just don't be afraid.

— Cindy, a breast cancer survivor who began her breast cancer journey with a mammogram provided through the Foundation's Mammogram Fund

Pensacola Breast Cancer Association

is a nonprofit organization whose mission is to raise money for education, screening and diagnosis of breast cancer in the Florida Panhandle indigent and under-insured patient population. This year, they donated a record **\$30,000** to support our Mammogram Fund.

The Pink Pirates of Navarre is a nonprofit group dedicated to raising money to donate to area hospitals to help fund free mammograms for those who cannot afford one on their own. This year, they donated a record **\$25,000** to our Mammogram Fund.

The Pensacola Interstate Fair invited Baptist to be the community partner in support of Breast Cancer Awareness Month. The Fair donated **\$10,000** from a portion of Pink Night's ticket sales to the Mammogram Fund.

WOMEN'S BOARD OF BAPTIST HEALTH CARE FOUNDATION

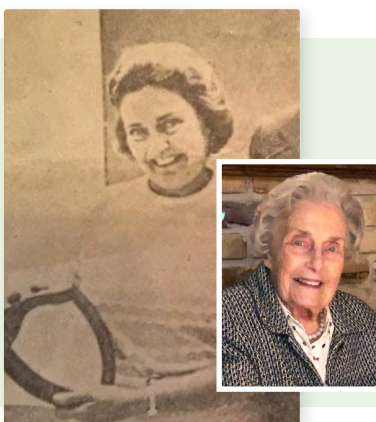

Established in 1976, the **Women's Board of Baptist Health Care Foundation** provides consistent support for the community through its commitment to health care initiatives. The Women's Board has raised more than **\$2.5 million** in support of various health care programs at Baptist Health Care and Lakeview Center. Through their efforts, the Women's Board volunteers have helped our organization make a difference in the lives of thousands in our community, assuring that access to the very best in health care and human services is available to all.

Membership for the Women's Board is open to any woman who is interested in serving her community. Membership meetings are held quarterly and provide members an opportunity to meet new friends, get the latest news on Baptist Health Care and learn through fun and educational programs. In addition to the quarterly meetings, the board hosts Women's Night Out events to engage its membership.

The Women's Board has raised funds for programs and projects for multiple departments within the organization including cancer, heart & vascular, women's health, Lakeview Center Children's Services, palliative care, FamiliesFirst Network of Lakeview Center and The Meridan at Lakeview Center.

Through hundreds of women and thousands of volunteer hours in service more than 40 years, our community members have access to better health care and quality of life.

In Memoriam

Founding Women's Board member Jane Noonan Pace chaired the first meeting as president with 25 ladies in attendance. Her vision and passion paved the way for years of success, creating lasting impact on our organization and communities. The Women's Board will remain committed to carrying out her legacy for many years to come. The Foundation will forever be grateful for her commitment, passion and dedication.

Stepping Out in Style Fashion Show Proceeds Build New Playground

The 43rd annual **Stepping Out in Style Fashion Show**, presented on October 24, 2019, by the Women's Board of Baptist Health Care Foundation, raised more than **\$131,285** to build a new playground for the **Autism Spectrum Disorder (ASD) Outpatient Services program at Lakeview Center**.

The ASD Outpatient Services program assists families and children through the use of Applied Behavior Analysis by teaching adaptive living, communication, safety and social skills to children. This new playground provides a safe space that will allow children to put into practice the skills they are learning in a fun, therapeutic setting.

“

We are so thankful for our bright and colorful playground,” said Jessi Truett, director, Autism Spectrum Disorder Outpatient Services. “This playground has given us such a wonderful area to work with our families. The children are able to practice the skills they are acquiring with their families in a safe and beautiful area. Our work here just became even more fun with the help of the Women’s Board.”

”

MAJOR PROJECTS SUPPORTED

The Foundation is proud to support Baptist Health Care in its Mission of helping people throughout life's journey. Baptist continues to demonstrate its commitment to offering the most advanced treatment options, and the Foundation was able to support three major technology and equipment purchases to provide the highest-quality care to the patients we serve.

SCOUT® Technology – A Better Option for Breast Surgery

Baptist Hospital is the first hospital in Northwest Florida to adopt the **SCOUT® wire-free radar localization system** to be used in certain breast cancer surgical procedures.

The SCOUT system eliminates the need to place a wire inside the breast to locate a tumor by using non-radioactive, radar technology to provide real-time surgical guidance during breast surgery. A reflector the size of a grain of rice is placed in the target tissue prior to the day of surgery. During surgery, real-time distance measurement guidance accurately detects the location of the reflector and the tumor to within one millimeter of accuracy.

The ability to precisely locate tumors may increase the probability of complete cancer removal, reduce the likelihood of the need for follow-up surgery and may result in better cosmetic outcomes.

Stryker SPY Portable Handheld Imager for Surgery Assistance

The Stryker SPY Portable Handheld Imager helps clinicians with perfusion assessment, giving them an enhanced view while performing surgeries and procedures. It uses fluorescence imaging technology to provide real-time visualization to enhance the ability to assess intraoperative blood flow, tissue perfusion and anomalous anatomy. This high resolution, compact and lightweight device delivers a highly detailed image with realistic color reproduction that is easy for surgeons and clinicians to change visualization modes and focus, giving them a wide imaging control of viewing. This device is often used during gastrointestinal, plastic, reconstructive and micro surgeries.

3D Digital Mammography at Baptist Medical Park – Navarre

3D digital mammography is now available for patients at Baptist Medical Park – Navarre using the latest technology, **Hologic Selenia Dimensions 3D**. This new technology takes more precise and detailed images at various angles, which can be reconstructed to create a 3D view of the breast. This technology allows doctors to examine the inner architecture of the breast without distortion, which helps them see abnormalities earlier when breast cancer is most treatable.

The benefits of 3D breast imaging include improved accuracy and detection, clearer images that show structures in the breast and spatial relationship with surrounding tissue, the ability to detect breast cancer very early, quicker tomosynthesis scans and confidence to rule out cancer without recalling the patient for further study.

Patients living in the Navarre area that wanted 3D screening were having to go to the Gulf Breeze Hospital campus. When patients that had a screening mammogram were called back for additional mammogram imaging, the radiologists were ordering almost all of them as 3D, so they also had to go back to the Gulf Breeze Hospital campus for those exams. This is definitely a patient experience win! The team LOVES that they have the latest technology on the Navarre campus. Patients have told them they are glad we brought this technology to Navarre so they can have their mammograms close to home. ”

— Vikki Jordan, Imaging Operations Manager

LAKEVIEW CENTER

Behavioral Health

The Foundation received nearly **\$300,000** from the **Estate of Hazel Barnes** to support behavioral health programs and services at Lakeview Center. Ms. Barnes' son was treated at Lakeview for many years before he passed away. She was grateful for the compassionate care he received from our team and wanted her estate to go to the organization that provides behavioral health treatments and services for children, teens, adults and seniors.

FamiliesFirst Network/ Operation Santa

For nearly 22 years, community members, faith partners and our own team members have joined together to support FamiliesFirst Network's Operation Santa initiative to ensure the children in our care receive gifts during the holiday season. Christmas gifts were provided to nearly **2,200 children** in foster care, many of whom have experienced trauma, abuse and neglect. Thanks to our generous donors and sponsors, these children get to feel the joy and excitement of Christmas and know their community cares about them.

Baptist Hospital critical care nurses participated in the “Nurses Giving Back – Change for Change” friendly unit competition to support children in foster care and raise money for FamiliesFirst Network adoption services.

HOLLINGER AWARDS

The Hollinger Awards are presented annually by the Baptist Health Care Foundation and are named in memory of Mr. and Mrs. Pick Hollinger. Long-time generous supporters of Baptist Health Care, Alberta and Pick Hollinger, demonstrated an outstanding commitment to improving the quality of life for those served at Baptist.

The awards are presented to individuals, families or organizations who have exhibited exceptional generosity and community leadership through gifts of their time and/or financial support to Baptist Health Care.

The 2019 Hollinger Award recipients were recognized at the Foundation's Annual Meeting in November 2019.

Luther Taylor; **Volunteer of the Year**, Edna Moore; **Women's Board Volunteer of the Year**, Monica Sherman; **Physician of the Year**, Michael Dolister, M.D.

WANT TO HELP US HELP OTHERS?

With your support, we are changing and saving lives every day. Make a donation online at BaptistHealthCareFoundation.org or call **850.469.7906**.

Ways to Give

Donate Online

Supporting Baptist Health Care has never been easier, and we invite you to contribute in a way that is meaningful to you. Your gift may be designated toward a specific service area of your choice.

Honor Someone Special

Tribute gifts are a thoughtful and heartfelt way to honor and recognize the life of a relative, friend, caregiver, community member or loved one.

Estate and Planned Giving

Making your planned gift can be a rewarding and meaningful way to contribute to the future of health care and human services programs. You can create a legacy by making a planned gift to support a program of significance to you.
