GRAND TOTAL  
FY 2022

OUR MISSION of helping people throughout life's journey is what drives us to make an impact on the community by supporting Baptist Health Care. The snapshot above details the donations made in FY2022 and demonstrates our commitment to Baptist Health Care and its many services.

# LETTER FROM THE CHIEF DEVELOPMENT OFFICER

Dear Friends,

At Baptist Health Care, we stop at nothing to continue our Mission of helping people through life's journey. The challenges posed by the pandemic caused us to reimagine the ways we serve our patients and deliver care. In many ways, we were able to better explore opportunities to map the future of health care for our community.

The generosity of our community is what allowed us to look beyond the crisis and more clearly into our future. Our new Baptist Hospital campus at Brent Lane and I-110 will open in fall 2023. With your support, kindness and generosity, we are able to lead the way with the latest technologies, programs and services to enhance our patients' and families' lives. Through your gifts, we will transform health care for future generations, and for that, **we thank you.**

Our new campus will provide a central location for clinical care via a new **acute care hospital, multispecialty health center** and **behavioral health unit**. The parklike setting of the new campus filled with native landscaping will provide a calming backdrop for optimum healing and comfort. We are excited about the next chapter in our future.

Philanthropy is imperative to the success of what we do as an organization. Thank you for realizing the full measure of Baptist's Mission and for supporting our Vision to be the trusted partner for improving the quality of life in the communities we serve.

Our 2022 Impact Report highlights the many successes of the Foundation throughout the year, including several major donors that have joined us in **Transforming Baptist for the Future**. We are humbled by all gifts to the Foundation. Thank you for making a difference in the lives of the individuals and families we serve, ultimately improving our community.

I would like to take this opportunity to thank our Foundation board members for their guidance, participation and unwavering support. These individuals are an essential component to the success of the Foundation, and we are thankful for their leadership and dedication to our organization.

Sincerely,

KC Gartman  
Chief Development Officer  
Baptist Health Care

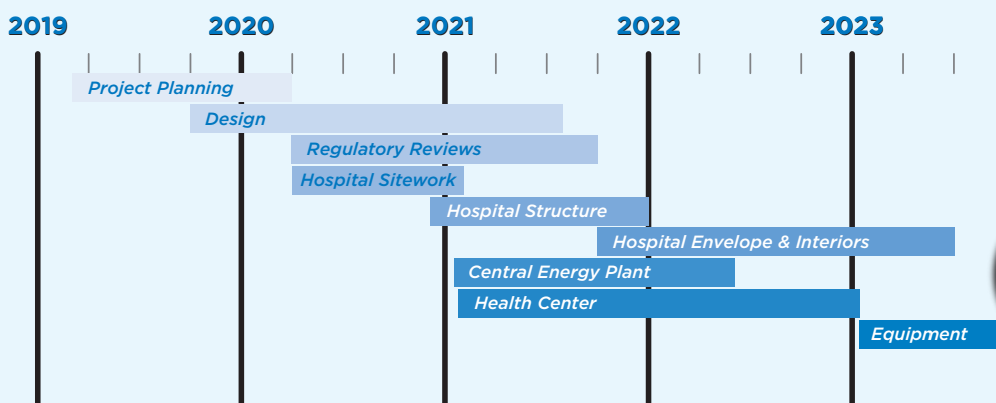

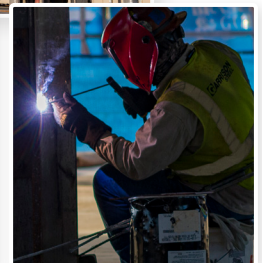

# NEW HOSPITAL CAMPUS PROGRESS

Throughout 2021, major progress has been made on the new Baptist Hospital campus at the corner of Brent Lane and I-110. Buildout progress has been completed on all 10 floors of the hospital. Drywall has been completed on floors 1-5 of the Bear Family Foundation Health Center. The building pad for the Behavioral Health Unit has been completed, and sidewalks have been installed in the town square. We are excited to watch the progression of the new hospital campus evolve, and we look forward to its opening in fall 2023.

# TRANSFORMING

## BAPTIST for the FUTURE

**The new Baptist Hospital campus** at the corner of Brent Lane and I-110 is the single largest investment in health care facilities, services and programs in Northwest Florida's history. Continuing our founders' bold **vision** and **legacy**, Baptist is committed to making this investment to transform care in our community and improve the quality of life for generations to come. Nothing of its kind has been imagined or currently exists in our area. This investment is the result of our legacy of putting people first with a goal of dramatically advancing health care access, experiences and outcomes for everyone in our community. A vision this bold is never accomplished alone. We are grateful for our partners in philanthropy in helping bring this vision to life.

# MAJOR GIFT DONORS

## RON AND MARGARET JACKSON

Ron and Margaret Jackson's commitment to Baptist stems from a longstanding family history. Margaret's grandfather, Earl Gaston, was one of the founding members of Baptist Hospital, spearheading a community campaign to raise funds to build a new hospital. As Baptist enters a new chapter, transforming once again to bring a new era of modern health care to the community, Ron and Margaret felt inspired to make a **major gift** to honor Margaret's grandfather. Through their philanthropic and volunteer support of Baptist, they continue the family legacy. The **chapel garden** at the new Baptist Hospital campus will be named in honor of the Jacksons' generous gift.

## JOHN AVERETT AND MARGUERITE AVERETT

John Averett and daughter Marguerite Averett share a passion for stroke education. The path that led them on the journey to learn more about stroke care began in 2011 when John's wife, also named Marguerite, suffered a stroke. Marguerite passed away seven months after the stroke from other underlying conditions, but the impact that Andrews Institute therapists and team members had on the family solidified permanent and lasting friendships. The Averetts have become one of the Foundation's most loyal donors, making a continued impact through philanthropic gifts to support stroke care and education, including Baptist's annual stroke symposium, as well as programs through the Women's Board and the Foundation's Mammogram Fund. Half of the **cardiology and neuro/stroke floor** in the new campus will be named in honor of the Averetts' most recent **transformational gift**.

## KUGELMAN FAMILY FOUNDATION

The Kugelman family's passion and commitment to Baptist is deeply rooted in Baptist's history. Jack and Jane Kugelman's four daughters and eight grandchildren were all born at Baptist Hospital. Jane Kugelman's passion for supporting cancer services sparked years of Foundation giving for new equipment and services within the Baptist Cancer Institute. Because of these impactful gifts over the years, the Baptist Hospital Women's Imaging Center and Cancer Center have been named in honor of the Kugelman Family Foundation. Now, the next generation has made another transformational gift of **\$250,000** that will honor the family's longstanding philanthropic support of Baptist by carrying forward the **Kugelman Cancer Center** name to the new Baptist Hospital campus.

## DAVIS FAMILY AND JEWELERS TRADE SHOP

Jewelers Trade Shop has been a prominent pillar in Pensacola since 1956. The Davis family has built strong relationships with community members and families through years of business growth and success, and the family is thankful for the opportunity to give back. The Davis family recently made a **\$100,000** gift to support the new Baptist Hospital campus. The Foundation will name the **imaging/cardiology waiting area**, which is located on the first floor, in honor of the Davis family for their impactful gift. Corbett Davis is honored to be able to continue carrying the family name and legacy forward to create a lasting impact for our community. He says that this gift is dedicated to three generations of the Davis family and the families that have worked at Jewelers Trade Shop over the years.

## AL AND MARY LEE STUBBLEFIELD

Al and Mary Lee Stubblefield's passion for helping others is deeply rooted in their Christian faith. Their devotion to faith has guided them through every aspect of their lives: their 47-year marriage; raising four children and nine grandchildren; their journey to Pensacola, the place they now call home; a successful career for Al at Baptist Health Care, where he retired in 2012; a calling to inspire other organizations to live their missions through faith; the chapter after retirement; and a lifelong commitment to serving and helping others. Al's journey with Baptist began in 1985, and in 1999, Al became the third president and CEO of Baptist Health Care until his retirement in 2012. Al and Mary Lee are continuing their legacy at Baptist by making a **\$100,000** gift towards the new Baptist Hospital campus. The **emergency department waiting area** will be named in honor of the Stubblefields for their generous gift.

## COLE FAMILY AND BERÉ JEWELERS

For Barry and Laura Cole, giving back to the community is one of their greatest passions. The high school sweethearts and Pensacola natives raised two boys and have built and grown a successful business, Beré Jewelers, for 38 years in our community. Their guiding philanthropic philosophy of "once a partner, always a partner" was the impetus for their latest **\$100,000** gift to Baptist. The Foundation will name the **pre-function conference area** at the new Baptist Hospital campus in honor of the Cole family and Beré Jewelers for their generous gift. Barry and Laura have been instrumental in helping educate others about the new hospital campus. A group of business owners, including the Coles, have joined together in an effort to encourage others to get involved with Baptist during this historic moment in our organization's history.

## DR. JOE AND SUSAN STORY

When Dr. Joe and Susan Story reflect on their life's journey, individually and together, they know they are fortunate. They also know what it means to come from humble beginnings, to have financial and family struggles throughout their childhood. These experiences have inspired the couple, who have now been married for 27 years, to give back to those who need it most.

Joe is a co-founder and developer of Andrews Institute for Orthopaedics & Sports Medicine and was the first president of Andrews Research & Education Institute and chair of Andrews Surgery Center.

Susan recently retired as president and CEO of American Water Works, the largest water utility in the United States.

Together, Joe and Susan always put their philanthropic giving where their passions lie, with a focus on impacting education, underserved communities and health and human services. They prioritize their impact through efforts that have a personal connection with them and organizations that will significantly impact the lives of so many others.

“We want to be remembered as people who really care and who use our talents and resources to make a lasting difference in the lives of others and our amazing community,” Joe Story said.

The Storys will continue their legacy with Baptist through their recent **\$1 million** transformational gift to support the new Baptist Hospital campus at Brent Lane and I-110. The Foundation will honor this gift by naming the **Story Medical Arts Building** at Andrews Institute.

“We are passionate about being part of innovation and transformation that makes people's lives better,” Susan Story said. “We are passionate about educational opportunity for everyone. We are passionate about being a hand up for those who want to run when they get up. We believe the quality of a person's life involves the physical, mental and spiritual parts of that person, and we believe that the right medical care—in a warm and inclusive community atmosphere and where everyone has a right to outstanding care—is what Baptist is all about. So that is where our passions unite.”

# ANNUAL MEETING AND HOLLINGER AWARDS

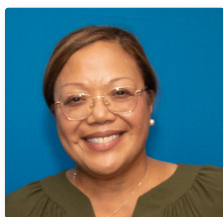

The Foundation announced the 2021 Hollinger Award recipients for outstanding service contributions to Baptist Health Care during its annual meeting on Nov. 17, 2021, at Pensacola Yacht Club. The awards are presented to individuals, families or organizations that have exhibited exceptional generosity and community leadership through gifts of their time and/or financial support.

The award is named in memory of long-time supporters of Baptist, Pick and Alberta Hollinger. The couple worked tirelessly to improve the quality of life for those served by Baptist.

## VOLUNTEER OF THE YEAR

**J. Clyde Broome** was a volunteer at the Gulf Breeze Auxiliary for more than 27 years, most recently serving as the treasurer. He had more than 40 years of military service, retiring as a colonel, and was involved in many community civic organizations over the years. Sadly, Clyde passed away Jan. 28, 2022, at Baptist Hospital. He was 89.

## WOMEN'S BOARD VOLUNTEER OF THE YEAR

**Grace Sullivan, R.N.**, has been an integral part of the Women's Board since 2012, has served on the executive committee since 2016 and most recently served two years as president. She has spent countless hours working on the annual Stepping Out in Style Fashion Show, quarterly membership luncheons and recruiting new members for the Women's Board.

## HEALTH CARE PROFESSIONAL OF THE YEAR

**Toinetta Coolie, DNP, APRN, FNP-BC**, is the Heart Optimization Clinic manager at Baptist Heart & Vascular Institute. Under her management, the HOC team has grown, hospital readmission rates have fallen and outreach services and locations have expanded to increase access to care and reduce COVID-19 exposure to patients.

## PHYSICIAN OF THE YEAR

**Enrique Diaz, M.D.**, specializes in the management of interstitial lung diseases, pulmonary hypertension, lung transplantation and advanced lung diseases. He helped develop the ECMO program at Baptist Hospital, and in 2017, Baptist was the first in Northwest Florida to offer ECMO for adult patients who have life-threatening breathing and/or heart problems. During the height of COVID-19, Dr. Diaz was instrumental in saving countless lives using ECMO in the ICU to care for Baptist's most vulnerable patients.

## CASINO ROYALE

This elegant black-tie event brings together Baptist leaders and vendors for a night of first-class dining, dancing, charity auctions and charitable gaming. Each year, Casino Royale is inspired by a James Bond movie, with this year's event featuring themes from "Dr. No." The 8<sup>th</sup> annual Casino Royale Gala took place on April 8, 2022, and raised nearly **\$300,000**. Proceeds benefitted the **new Baptist Hospital campus** at Brent Lane and I-110.

This new 57-acre, centrally-located campus is designed to be a calm, peaceful, patient-centered environment of care for those we serve. An innovative, convenient, safe and compassionate place to provide and receive care, the new campus will incorporate modern efficiencies in a healing environment.

The new campus, opening in fall 2023, includes a full-service, 10-floor, 602,000-square-foot flagship hospital, behavioral health unit and the six-floor, 178,000-square-foot Bear Family Foundation Health Center. These buildings are complemented by the natural beauty of the town square, designed to provide an activated outdoor space for rest, healing, fellowship and wellness.

# HELPING HANDS TEAM MEMBER GIVING

Baptist Health Care team members are some of the most generous donors to the Foundation, contributing **\$177,173** last year. Donations to the Helping Hands Fund financially impact three focus areas: assisting team members and their families directly, giving back to our communities and supporting our organizational Mission of helping people throughout life's journey.

## TEAM MEMBER IMPACT

- **Emergency Assistance** – \$48,580 total financial assistance was provided to 37 team members to support them through catastrophic events.
- **Educational Scholarships** – 36 educational scholarships were awarded to team members and dependents in the amount of \$1,000 each.
- **Holiday Food Assistance** – 36 team members received food card assistance.
- **Adoption/Foster Care Assistance** – Three team members received one-time \$1,000 adoption assistance.

## COMMUNITY IMPACT

- **C.A. Weis Elementary School** – 550 students received Christmas gifts.
- **United Way of West Florida** – A \$25,000 donation impacted 56 partner agencies and 29 funded programs.
- **Mission Trip Support** – Three team members received assistance to support mission trip efforts.

## ORGANIZATIONAL SUPPORT

- **Mini-Grants Program** – 16 grants were awarded to departments organization-wide for a total impact of \$61,220.

## An Adoption Story

"On Sept. 3, 2020, we were matched with 5-year-old Janae. She moved in Oct. 1, 2020, and we finalized her adoption on Oct. 4, 2021. After struggling with years of infertility, we were open to other ways of growing our family. Every day at work I would walk by the pictures of children waiting to be adopted hanging on the wall in the corridor from the towers to the hospital. I shared the strong pull my heart felt with my husband, and we agreed to proceed down the path of adoption.

We worked with FamiliesFirst Network with hopes to help kids in our immediate community. Our journey to adoption took approximately one year, which allowed us to really see what our family would look like. Adoption is both rewarding and challenging, but in the end worth all the ups and downs. We have so much fun together as a family, enjoying traveling, sports, outdoor adventures and spending time on the water. Even though we missed the early years, we cherish every "first" we are able to experience together.

Jason and I were able to fulfill our desire to grow our family, and Janae was able to find her forever home. We appreciate the support of the Helping Hands program and the Baptist Health Care Foundation through this process."

— Anna Kisor, Pharm.D., CPh, Baptist specialty pharmacy manager

## MISSION TRIP IMPACT

Through Helping Hands, aid or supplies for domestic or foreign mission trips can be provided to help further support a team member's mission or ministry outreach.

Hannah Yager, marketing manager for Baptist, visited Peru in July 2022 with the Reimagine mission team. Over 10 days, Hannah and the mission team replaced five thatched and cardboard dwellings with wooden homes and gave away free clothing to hundreds of community members.

Hannah worked in a couple of small communities outside of the capital city of Lima. The region is mountainous, and many residents must climb hundreds of stairs daily to reach their homes at the top of the mountain. The same applies when the mission team constructs a new home. Trucks hauling building materials can only make it so far up the mountain on the steep dirt roads. After the truck has taken supplies as high as possible, the mission team and residents of the community make a long assembly line up the stairs to the building site. They pass the pieces of the prefabricated home – walls, doors, bags of sand for the foundation – up the mountain for hours while a contracted construction team assembles the home at the build site.

“Building each home is a big job,” Hannah said. “We couldn’t do it with our small team of 20, so the whole community pitches in. It’s beautiful to see. Many people who are in need themselves pitch in to help build a house for another family.” Community members who help with the build receive a voucher for a free meal each day and a voucher to choose free clothing at the end of the week.

The region of San Juan de Lurigancho is one of Lima’s largest and poorest districts. Because the Reimagine team has been building homes in the same community for so many years, the people know and trust the teams. But, Reimagine does more than simply build houses. They have a weekly kids’ program where they worship, study the Bible and do crafts and activities. There is also a church that meets all year long, ministering to and disciplining new believers.

This was the first trip for Hannah with Reimagine, but it won’t be her last. She said that her experiences there truly blessed her compassionate heart and connection to God just as much as she touched the lives of the Peruvian community.

“Before I even left Peru, I had already decided to go back next year,” said Hannah. “I believe in my heart that more of God’s work can be done there, and I want to directly contribute physically and spiritually with these wonderful people. I am grateful to the Baptist Health Care Foundation who donated funds to help with purchasing supplies on this trip. Baptist truly cares about helping people throughout life’s journey in our community and far beyond.”

# MAMMOGRAM FUND

Every October, the Foundation partners with Baptist Cancer Institute and the imaging department for a month-long campaign to raise awareness about the importance of breast health. The Foundation's Mammogram Fund provides mammograms year-round to those in need in our communities.

Throughout the year, the Foundation continuously works with community partners and donors to help raise funds and awareness about Baptist's mammogram program. This program would not be possible without the generous support of our donors who contributed **\$99,203** this year.

Over the last 13 years of this program, screenings have been provided to **2,645** people. As a result of these screenings, **681** required additional testing, **93** required biopsies and **32** were diagnosed with breast cancer.

## DONOR SPOTLIGHT

### Pensacola Breast Cancer Association

The Pensacola Breast Cancer Association (PBCA) is a local 501(c)3 nonprofit organization established in 2003 whose volunteer board members are a dedicated group that is passionate about serving those in need in our community. PBCA's Mission is to raise money for education, screening and diagnosis of breast cancer in the Florida Panhandle indigent and under-insured patient population.

The Foundation serves as one of PCBA's community partners that receives annual funding to provide mammogram screenings to those in need. Over the last **15 years**, as of FY 2021, PCBA has donated a total of **\$293,000** to our Mammogram Fund.

The Foundation was the recipient of **University of West Florida's "Pack-It-Pink" ladies' volleyball** match in October 2021. The annual event was co-sponsored by Andrews Institute and the Baptist Cancer Institute to raise awareness about breast cancer resources. A portion of the event proceeds was donated to our Mammogram Fund.

# WOMEN'S BOARD OF BAPTIST HEALTH CARE FOUNDATION

Established in 1976, the Women's Board of Baptist Health Care Foundation provides consistent support for the community through its commitment to health care initiatives. The Women's Board has raised more than **\$3.5 million** in support of various health care programs at Baptist. Through their efforts, the Women's Board volunteers have helped our organization make a difference in the lives of thousands in our community, ensuring that access to the very best in health care and human services is available to all.

Membership for the Women's Board is open to any woman who is interested in serving her community. Membership meetings are held quarterly and provide members an opportunity to meet new friends, get the latest news from Baptist and learn through fun and educational programs. In addition to the quarterly meetings, the board hosts Women's Night Out events to engage its membership.

The Women's Board has raised funds for programs and projects for multiple departments including cancer, heart and vascular, women's health, children's services, palliative care, COVID-19, the new Baptist Hospital campus as well as FamiliesFirst Network.

Through hundreds of women and thousands of volunteer hours in service for more than **45 years**, our community members have access to better health care and quality of life.

## STEPPING OUT IN STYLE 45<sup>TH</sup> ANNUAL FASHION SHOW

The 45<sup>th</sup> annual Stepping Out in Style Fashion Show, presented by the Women's Board of Baptist Health Care Foundation, raised more than **\$120,000** to name the **infant nursery** at the new Baptist Hospital campus at Brent Lane and I-110.

The fashion show is the largest fundraiser for the Women's Board. The event was held on Oct. 28, 2021, at Sanders Beach Corrine-Jones Resource Center and featured professional and local models showcasing the latest fashions along the runway, silent and live auctions, and emcees Brent Lane and Sue Straughn. The show featured styles from local boutiques including Bluetique, Dillard's, Gulf Coast cabi Stylists, The Market and Mainly Shoes, and The South Outfitters.

# HOSPITAL PROJECTS SUPPORTED

## Heart & Vascular Institute Heart Optimization Clinic

Heart failure is estimated to affect 4 to 5 million Americans, with 550,000 new cases reported annually.

At Baptist, our Heart Optimization Program can assess each patient's unique medical needs and goals. The goals are immediately available to the heart optimization clinic provider, the cardiologist and the primary care provider within the Baptist Health Care system. The ability to share this information between providers ensures that patients receive the best possible care.

The Foundation purchased an **Abbott Piccolo Xpress Analyzer** and testing supplies for the heart failure clinic and cardiology research department. This equipment will allow the clinical team to perform a simple venipuncture to obtain the needed labs to determine the proper medication dosages for each patient before they even leave the office. The goal is to prevent heart problems through medication, leading to fewer hospitalizations. Our research team can provide accurate lab results to our providers within minutes, assisting with the outcome of current research projects. The overall goal is to continue helping people throughout life's journey with improved communication, timely lab monitoring and increasingly positive outcomes – all of which will assist with decreasing our overall heart failure hospital readmissions.

## Lung Simulator for Respiratory Services

The Foundation purchased the **Dual Adult Lung Simulator** to assist in training for complicated conditions that occur in the ICU and ER. The simulator allows for the learner to respond to changing conditions, troubleshoot and manage the ventilator while being observed by the instructor. A debriefing will then take place post simulation to discuss behaviors, actions and learning opportunities. The device is portable and can be safely transported to the respiratory services teams at all Baptist hospitals. This type of team training improves individual and team performance as well as patient outcomes. It enables improvement in behaviors during time critical events and provides hands-on interaction to address learning needs before a clinician works with a patient. We are grateful to support these new training opportunities for our teams.

## DONOR SPOTLIGHT

### Scottish Rite Foundation of Florida, U.S.A., Inc.

The Scottish Rite Foundation has partnered with Baptist for **24 years** to provide funding for children who have difficulty speaking or understanding the spoken word and school-age children who have difficulty learning to read. Over the years, the organization has contributed more than **\$852,000** that has provided speech and language screening and treatment to more than **480 children** who would have otherwise been unable to receive care.

“One patient, a 2 ½-year-old boy, produced approximately seven words and no word combinations when we began therapy. He communicated through closed-mouth grunting type vocalizations and gestures. His vocal and verbal imitation skills were poor. Throughout nearly one year of therapy completed with him, his verbal expression skills improved significantly regarding the use of single words, phrases and sentences to communicate his thoughts and intentions. The boy's family was very appreciative of the financial assistance they were able to receive for their son's speech and language therapy, and they were very excited by the progress he made with being able to communicate.”

— Barbara, Baptist Hospital speech-language pathologist

With your support, we are changing and saving  
lives every day. Make a donation online at

## *Ways to Give*

### **DONATE ONLINE**

Supporting Baptist Health Care has never been easier, and we invite you to contribute in a way that is meaningful to you. Your gift may be designated toward a specific service area of your choice.

### **HONOR SOMEONE SPECIAL**

Tribute gifts are a thoughtful and heartfelt way to honor and recognize the life of a relative, friend, caregiver, community member or loved one.

### **ESTATE AND PLANNED GIVING**

Making your planned gift can be a rewarding and meaningful way to contribute to the future of health care and human services programs. You can create a legacy by making a planned gift to support a program of significance to you.

# OUR MISSION

Helping people throughout life's journey.

## OUR VISION

To be *the* trusted partner for improving the quality of life in the communities we serve.

## OUR VALUES

Guided by Christian values, we commit to the following:

**OWNERSHIP** | accountable, engaged, stewardship, responsive, committed

**INTEGRITY** | honest, principled, trustworthy, transparent

**COMPASSION** | empathetic, merciful, sensitive, kind, giving, forgiving, hopeful

**EXCELLENCE** | safety, quality, distinguished, learning, improving

**SERVICE** | welcoming, attentive, humble, respectful, exceeds expectations, collaborative
